PROJECTS

Wanderlust (Github - <https://github.com/Mouryankit/wanderlust>)

Tech Stack: Node.js, Express.js, React, MongoDB, JWT, Cloudinary, Joi

- Developed a full-stack MERN booking platform with a conflict-free reservation system, enabling seamless and reliable property bookings.
- Implemented secure OAuth 2.0/JWT-based authentication, RESTful APIs with Joi validation, and Cloudinary-powered image management to enhance security, scalability, and user experience.

Spotify Clone (GitHub - https://github.com/Mouryankit/Spotify_Clone)

Tech Stack: HTML5, CSS3

- Built a responsive Spotify-inspired web player, replicating the core user interface and user experience of a modern music streaming platform.
- Utilized Flexbox for adaptive layouts and implemented interactive UI elements using pure CSS techniques, including the checkbox hack, without relying on JavaScript.
